Henry David Thoreau wrote *Walden* - his well-loved musings on nature, solitude, and mankind - during his time in a self-made shack at Walden Pond in Concord, Massachusetts. Today, Concord still breathes with the spirit of Thoreau. Go beyond the pond to these sites touched by the life and works of the influential writer, transcendentalist, and nature-lover.

**REFLECTIONS ON WALDEN POND**
Thoreau’s most famous work, *Walden*, was created in the woods along the shoreline of Walden Pond in a small, one-room room home he built for himself in 1845.

Over the course of two years and two months at the pond, Thoreau lived simply and supported himself solely by his own hand. During this time, Thoreau kept journal records of his theories and observations of both nature and man. The resulting *Walden* is undoubtedly one of the most significant American literary works of the era.

Take a leisurely hike around Walden Pond and dedicate a few moments to quiet pondering at the original site of Thoreau’s cabin (1). A replica of the little house stands near the Visitor Center (2).

**TRANSCENDENTALIST HOTSPOTS**

*The Orchard House* (4) is best known as the Little Women house, home to notables Louisa May Alcott (author of the beloved novel), and transcendentalist Bronson Alcott.

*Author’s Ridge* at Sleepy Hollow Cemetery (5) is the resting place for many notable writers, including Emerson, Alcott, and Hawthorne.

*The Concord Museum* (6) maintains a permanent exhibit of Thoreau (and other major Concord-based writers). A special exhibit is set to be on display at the Concord Museum from September 29, 2017 - January 21, 2018, and will feature the most comprehensive collection of Thoreau’s journals, manuscripts, personal effects, and more.
